*What level of return should I expect to see on my investment?*

For businesses that chooses to enhance their signage with an electronic message display, the owners typically see an increase in business of 15% to 150%. Using the smaller number, consider the following example.

A small business generating \$1,000.00 a day in revenue adds an electronic message center. The business soon increases by 15%, adding another \$150 per day in total revenue. That translates into an additional \$1,050.00 a week in revenue, or \$54,600.00 per year.

*\*Statistics taken from the U.S. Small Business Administration*
